natural Vitality and Color. A dressing

once agreeable, offectual for other Western Cities enabling trav healthy, and picserving the elers to reach their destination from um. It soon all other Lanes restores faded or may hair to its original color, with the

gloss and freshness of youth . Thin han is thickened, falling hair checked, and bildness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain em bo lated into activity, so that a new growth of hair is produced. Inst id of fouling the hair with a pasty scdiment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it It wanted merely for a HAIR DRESSING, nothing else can be found so desnable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a giateful perfume

POST OFFICE RULINGS.

POST OFFICE HOURS.

Among the recent rulings by the Postmaster General, are the follow-

ing:
Dry goods may be mailed under the rules governing third-class matter, packages limited to four pounds, wrap-ped so as to admit of examination without destroying the wrapper, and unaccompanied by any writing in addition to the address, postage one cent for every two ounces or fraction thereof.

All third class matter should be prepaid in full, or the same should not be forwarded; but if the same should reach its destination not having been prepaid double the prepaid rate must be colected on the unpaid portion.

United States postal cards, when addressed to Canada, must have a one cent United States postage stamp impressed on the card.

From and after January 1st, 1874 newspapers, one copy to each actual subscriber residing within the county where the same are printed, in whole or in part, and published, shall go free through the mails, but the same shall not be delivered at letter-carrier offices or delivered by carriers, unless postage is paid thereon as by law provided

The pasting or gumming of a printed address on a postal card renders it unmailable as a postal card and subjects it o letter postage. The postal laws do not exempt post-

masters from working on the public The law makes no distinction in the

rate of postage on official and private letters, so that the same rules govern the rate of postage on all letters or packages, whether official or otherwise AN ILLUSTRATED PLATE. - A citi-

THE Clevelanders have had a great deal of fun recently out of spelling matches. A reporter of the Herald has stood the longest on two occasions. lady stood alone, all the rest overthrown, when the lady missed isosceles. The fall of the reporter, who was the last survivor, is thus described by him-

"'Now,' said Mr. James, 'I have a words for you to tackle,' as his eyes gloated over some orthographical condomerations that were not even printed n his 'blue-book,' but which he had dug out of dictionaries and medical works and with which he had frescoed in pencil, the margin of his book 'Colocynth!' exclaimed he, with a triumphant, spell-it-if-you-can air, 'and if you want to know what it means, it's a medicine for babies.' The luckless chap scratched his pate for a moment, thinking the word was enough to kill any baby in christendom, to say nothing of the medicine, made one wild effort to spell it—and then his corpse was added to the pile of slain.

"Some of the blunders in spelling were, of course, laughable, and excited much merriment, but perhaps many of those who laughed would themselve have made even worse mistakes. A one time Mr. James gave to the Her ald the word pronounced lock,' giving also its definition -- a lake. 'L-o-u-g -lock'-and there was a general laugh at the studity of spelling 'lock' in such master of ceremonies. But when the noise had abated, and Mr. James, who was standing on a chair, said, with a wave of the hand, 'He is entirely correct!' the newspaper man had the laugh on his side, and the room resounded with applause.'

Harper's Magazine Notices of the Press:

Notices of the Press:

The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs,—indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudice or deprayed tastes.—Boston Globe.

The character which this Magazine possesses for variety, enterprise, artistic wealth and literary culture that has kept pace with, if the has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The Magazine has done good and not evil all the days of its life.—Brooklyn Eagle.
